

Gazing at the Moon

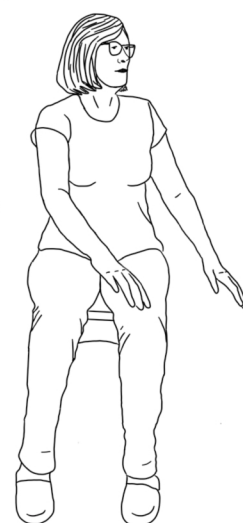

1. Sit in the best upright posture with your arms relaxed by your sides. Let go of any excess muscle tension.

2. Breathe in gently as you turn to the side and your arms slowly raise up to shoulder level or a comfortable height – so your hands make a frame in front of your face.

3. Breathe out as your arms gently lower and return to the centre.

4. Repeat moves 2 & 3 to the opposite side. Imagine you are gazing at the moon through the frame of your hands.
Continue x ____

To finish, breathe out as your arms lower back to the starting position.
